ACHIEVEMENT

FULL-STACK MOBILE APPLICATION

April 8, 2026

Developed a cross-platform mobile application using Flutter and Node.js, integrating RESTful APIs for seamless data communication. Implemented advanced features including Bakong KHQR and ABA PayWay for secure digital transactions. Enhanced the backend infrastructure using Python for automated data processing and API integration webhooks.

WEB DEVELOPMENT LAB PROJECT

June 2, 2025

Engineered a responsive e-commerce website and management system using Laravel and React, focusing on high-performance backend logic and interactive UI. Integrated Python scripts for efficient data scraping and backend automation, while ensuring secure database management using MySQL and MongoDB.

ABOUT ME

I am a dedicated Full-Stack Developer and a final-year Computer Science student at the Royal University of Phnom Penh (RUPP). I specialize in building scalable mobile and web applications using Flutter, Node.js/Python, and Laravel. I have extensive experience in integrating digital payment systems like Bakong KHQR and ABA PayWay. Combined with my English proficiency from Pannasastra University of Cambodia (PUC), I am committed to delivering high-quality and innovative technical solutions.https://www.notion.so/Cafe_signal-Company-projects-31b4c737f54580d5b86ae09bca674bc7?source=copy_link

EXPERIENCE

FULL-STACK DEVELOPER Y4

RUPP - Assignment Y4 -APP-mobile | Phnom Penh, Cambodia
February 4, 2026 - April 2, 2026
Entry Level | Working Experience

Collaborated in a team as a Full-Stack Developer to build a scalable mobile application using Flutter for the front-end and Python/Node.js for the back-end. I led the integration of secure Bakong KHQR and ABA PayWay payment systems and managed MongoDB databases. We utilized GitHub for version control and followed Agile practices to ensure clean code and timely delivery.

WEB DEVELOPER (ACADEMIC PROJECT) Y3

RUPP | Phnom Penh, Cambodia
January 1, 2025 - September 1, 2025
Entry Level | Working Experience

Collaborated in a team to develop a dynamic web application as a Year 3 core project. I led the backend development using Python and Node.js, while coordinating with team members to integrate MySQL databases. We utilized GitHub for version control and followed Agile practices to ensure timely project delivery and clean code integration.

EDUCATION

ASSOCIATE OF INTENSIVE ENGLISH PROGRAM (IEP)-PART-TIME 5:30PM

Pannasastra University of Cambodia | Phnom Penh, Cambodia
March 25, 2026 - Invalid date

Currently pursuing Level 4 (High-Intermediate) in the Intensive English Program. Focusing on advanced academic writing, professional communication, and complex grammar to support technical documentation and collaboration in a professional IT environment.

BACHELOR OF COMPUTER SCIENCE /IT

Royal University of Phnom Penh | Phnom Penh, Cambodia
January 2, 2023 - April 2, 2026

Currently in my final year of Bachelor's degree, focusing on advanced software engineering and Full-Stack architecture. Developing a final year project that involves building a scalable web application using modern frameworks. Proficient in bridging the gap between front-end design and back-end logic.
